Member Comments: Called for an estimate to remove 5 trees, stumps and brush from our backyard. Friendly and prompt response with competitive prices. We went with another provider for the service that had done work for our neighbors, but I would consider calling them in the future.

Member Comments: They were GREAT! We were very happy with their quick response to our call. They came out the next day for an estimate and were prepared to do the work the following day, but we asked them to wait until another day that would work better for us. They were VERY professional and friendly and made us feel very comfortable around them. We are very glad we found them and would recommend them to everyone. You will not be disappointed with their work!

Member Comments: It went well. This was a large tree -- over 50 years old, with an extensive root system. We started to have issues with plumbing as it invaded the main sewer line. Garcia's responded quickly, with a fair price, and came back to help with the root system that covered a large portion of the front yard.

Member Comments: The folks at Garcia's were wonderful to deal with. They called me back right away. When I explained that I had a big tree that had become damaged and was now tilting at a sharp angle (and very close to the house), they came out right away. They gave me a very fair price and were able to take down and remove the tree that same afternoon. They were pleasant and professional, and provided quick, reliable, and affordable service. I am extremely grateful because it was very, very windy that evening, and the tree no-doubt would have fallen and caused significant damage had it not been removed that day. Based on my experience, I would enthusiastically recommend Garcia's Tree Experts for anyone needing this type of work to be done.

Member Comments: Garcia's Tree Experts gave us the lowest estimate among the licensed services. Other services' estimates were as high as \$5K and involved a crane. Garcia's workers came on time, finished on time, not a smallest damage to a house (previous contractor did), didn't use a heavy crane that could potentially damage a driveway, and cleaned-up the site very nicely. We used the company again, for tree trimming. Also, we recommended them to our neighbors who praised the company as well.

I was happy about how quickly it got set up and how responsive they were. They showed up on time Saturday morning - a crew of four, which was probably overkill for the job, but they all kept busy and got the job done quickly and efficiently, and (most importantly) they did a great job of cleaning up - smoothing over the ground and picking up just about every last leaf and twig,

<p>Member Comments: I had a concern that the crew would have a problem in removing the tree because it was right next to the fence in the alley and several wires were running thru parts of the tree and the tree was surrounded by several mature bushes. Member Comments: A large white pine tree was leaning into neighbors yard. We obtained 4 estimates and Garcia gave the best price. They removed the tree, ground the stump, and trimmed a second tree 3 days after we signed the contract. They did not need to remove any of our fence or go in neighbors yards to work. No other shrubbery was disturbed and everything was clean when we returned home. We will call on them again when necessary.

Member Comments: The contractor called and came to the house a day after I requested an estimate via email. The estimate was fair and I asked to be put on the schedule. I also requested a days notice so that I could be home while the work was being done in case there were questions. I got the call on Saturday morning and Caesar and his crew of 4 arrived at 9:20 am on Monday. It took them 2 hours to complete the job. There were two trees that required them to climb in order to get to the limbs that needed pruning. The work was all in the backyard, so they had to haul all the yard debris from the back to the front (up a slight incline). The clean-up was fantastic. They even hauled away the other yard debris that I hadn't gotten around to get rid of. The entire crew did an excellent job. The quality of work and professionalism was outstanding. This is the second time I've used this company and both times I've been very pleased with the work performed.

Member Comments: They showed great responsibility when one of our large branches was hanging over a neighbors roof. They were very careful in cutting it without letting it fall on to the roof. Their prices are half of what other tree service companies charge. The clean up was better than I had expected it to be. My yard looked better when they left than it did before they were here. They are very busy and it does take a bit before you can get them out but the wait is worth it. My neighbors had noticed what a great job they had done and scheduled to have their tree needs taken care of too.

When there was a storm in the area, one of our trees fell down. I had several estimates that seemed like a rip off -- everyone was desperate at the time. They gave a reasonable estimate, were easy to deal with, and did the work professionally. The worker bees were great -- really nice, cleaned everything up, even took away some other yard waste. GARCIAS' TREE EXPERT  
CLIENT REVIEWS

When there was a storm in the area, one of our trees fell down. I had several estimates that seemed like a rip off -- everyone was desperate at the time. They gave a reasonable estimate, were easy to deal with, and did the work professionally. The worker bees were great -- really nice, cleaned everything up, even took away some other yard waste. Wow, I don't have words to explain how fast, accurate and effectively they took my maple tree down. This tree was huge and was right in between mine and my neighbor's house. The best thing is that this company matches and even beats the price of any other company. I would strongly recommend this company to anyone looking for tree service. Very professional personnel. I couldn't be more pleased with Garcia's. They were always friendly and helpful over the phone. They were prompt to swing by our house, look at our doomed tree and provide an estimate. They were super fast at faxing over a copy of their insurance, and they have a great reputation with the Better Business Bureau.

They showed up right on time and started hacking away -- mainly one guy roped up in the tree with a chain saw, and a bunch of guys clearing branches to the chipper. The whole tree was down in about two and a half hours. The trunk sections were hauled away within a few business days.

We chose Garcia's initially because they provided the best price and they checked out as a reputable business. But if/when we need any more assistance with trees, I will call them back because they did a really good job and they run a great business.
